March 1, 2010

Project Number: GFE090821  
Tested Type: Wiosun PVT A180P (PV Therm)  
Test Standards: IEC 61215, IEC 61730, ANSI/UL 1703

Dear Mr. Bihler,

This is a notification that the Wiosun PVT photovoltaic module portion tested in project GFE090821 has met the minimum testing and construction evaluation requirements of the IEC 61215:2005, IEC 61730-1:2004, IEC 61730-2:2004 and ANSI/UL 1703 standards. Congratulations on this achievement.

A factory inspection will be scheduled by Canadian Standards Association (CSA International) for ANSI/UL 1703 portion. A factory inspection will be scheduled by our colleagues in TUV Rheinland global PV group for the IEC 61215 and IEC 61730 portions. Upon successful completion of the factory inspections, this product will be recommended for certification to the respective certification bodies.

The solar thermal portion of this module is now under assessment to SRCC Standard 100. TUV Rheinland PTL is an accredited SRCC test lab.

Sincerely,

Joseph M Kuitche  
Head of Operations  
TUV Rheinland PTL, LLC
